

# ELIL ELIS

Leveraged & Inverse ETFs

## Direxion Daily LLY Bull 2X and Bear 1X Shares

### Overview

The [Direxion Daily LLY Bull 2X Shares](#) and [Direxion Daily LLY Bear 1X Shares](#) seek daily investment results, before fees and expenses, of 200% and 100% of the inverse (or opposite), respectively, of the performance of the common shares of Eli Lilly and Company (NYSE: LLY).

**Investing in the funds involves a high degree of risk.** Unlike traditional ETFs, or even other leveraged and/or inverse ETFs, these leveraged and/or inverse single-stock ETFs track the price of a single stock rather than an index, eliminating the benefits of diversification. Leveraged and inverse ETFs pursue daily leveraged investment objectives, which means they are riskier than alternatives which do not use leverage. They seek daily goals and should not be expected to track the underlying stock's performance over periods longer than one day. They are not suitable for all investors and should be utilized only by investors who understand leverage risk and who actively manage their investments. The Funds will lose money if the underlying stock's performance is flat, and it is possible that the Bull Fund will lose money even if the underlying stock's performance increases, and the Bear Fund will lose money even if the underlying stock's performance decreases, over a period longer than a single day. **Investing in the Funds is not equivalent to investing directly in LLY.**

### Single Stock Exposure

Eli Lilly and Company is a global pharmaceutical company dedicated to discovering, developing, manufacturing, and marketing innovative medicines in various therapeutic areas, including neuroscience, endocrinology, oncology, cardiovascular diseases, and immunology. Its portfolio encompasses a wide range of prescription drugs, biologics, and animal health products. LLY is registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Information provided to or filed with the Securities and Exchange Commission by Eli Lilly and Company pursuant to the Exchange Act can be located by reference to the Securities and Exchange Commission file number 001-06351 through the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov). In addition, information regarding Eli Lilly and Company may be obtained from other sources including, but not limited to, press releases, newspaper articles and other publicly disseminated documents.

### Fund Facts

	Direxion Daily LLY Bull 2X Shares	Direxion Daily LLY Bear 1X Shares
Fund Symbol	ELIL	ELIS
Intraday Indicative Value	ELIL.IV	ELIS.IV
CUSIP	25461A312	25461A296
Daily Target	200%	-100%
Gross Expense Ratio	0.99%	0.99%
Net Expense Ratio*	0.97%	0.97%
Inception Date	3/26/2025	3/26/2025

\*The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Funds' adviser, Rafferty Asset Management, LLC ("Rafferty"), has entered into an Operating Expense Limitation Agreement with each Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse a Fund for Other Expenses through September 1, 2026, to the extent that a Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.

### Important Information Regarding ELIL

The Direxion Daily LLY Bull 2X Shares (ELIL) seeks 200% daily leveraged investment results and thus will have an increase of volatility relative to the underlying LLY performance itself. Longer holding periods, higher volatility of LLY and leverage increase the impact of compounding on an investor's returns. During periods of higher LLY volatility, the volatility of LLY may affect the fund's performance.

### Important Information Regarding ELIS

The Direxion Daily LLY Bear 1X Shares (ELIS) seeks daily inverse investment results and is very different from most other exchange-traded funds. Longer holding periods and higher volatility of LLY increase the impact of compounding on an investor's returns. During periods of higher volatility, the volatility of LLY may affect the fund's return as much as, or more than, the return of LLY.

### Performance (As of 12/31/2024)

	1M %	3M %	YTD %	1Y %	S/I %	Inception
ELIL	NAV					03/26/2025
	Market Close					
ELIS	NAV					03/26/2025
	Market Close					

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at [direxion.com](http://direxion.com). Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

## Important Information

**An investor should carefully consider a Fund's investment objective, risks, charges, and expenses before investing. A Fund's prospectus and summary prospectus contain this and other information about the Direxion Shares. To obtain a Fund's prospectus and summary prospectus call 866-476-7523 or visit our website at [direxion.com](http://direxion.com). A Fund's prospectus and summary prospectus should be read carefully before investing.**

CUSIP Identifiers have been provided by CUSIP Global Services, managed on behalf of the American Bankers Association by Standard and Poor's Financial Services, LLC, and are not for use or dissemination in any manner that would serve as a substitute for a CUSIP service. Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

The Funds have derived all disclosures contained in this document regarding Eli Lilly and Company from publicly available documents. In connection with the offering of each Fund's securities, neither the Funds, the Trust, nor the Adviser or any of its respective affiliates has participated in the preparation of such documents. Neither the Funds, the Trust nor the Adviser or any of its respective affiliates makes any representation that such publicly available documents or any other publicly available information regarding Eli Lilly and Company is accurate or complete. Furthermore, the Funds cannot give any assurance that all events occurring prior to the date hereof (including events that would affect the accuracy or completeness of the publicly available documents described above) that would affect the trading price of Eli Lilly and Company have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning Eli Lilly and Company could affect the value of a Fund's investments with respect to Eli Lilly and Company and therefore the value of the Funds.

**Direxion Shares Risks** – An investment in a Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with a Fund concentrating its investments in a particular security, industry, sector, or geographic region which can result in increased volatility. A Fund's investments in derivatives such as futures contracts and swaps may pose risks in addition to, and greater than, those associated with directly investing in securities or other investments, including imperfect correlations with underlying investments or the Fund's other portfolio holdings, higher price volatility and lack of availability. As a result, the value of an investment in a Fund may change quickly and without warning.

**Leverage Risk** – The Bull Fund obtains investment exposure in excess of its net assets by utilizing leverage and may lose more money in market conditions that are adverse to its investment objective than a fund that does not utilize leverage. A total loss may occur in a single day. Leverage will also have the effect of magnifying any differences in the Fund's correlation with LLY and may increase the volatility of the Bull Fund.

**Daily Correlation Risk** - A number of factors may affect the Bull Fund's ability to achieve a high degree of correlation with LLY and therefore achieve its daily leveraged investment objective. The Bull Fund's exposure to LLY is impacted by LLY's movement. Because of this, it is unlikely that the Bull Fund will be perfectly exposed to LLY at the end of each day. The possibility of the Bull Fund being materially over- or under-exposed to LLY increases on days when LLY is volatile near the close of the trading day.

**Daily Inverse Correlation Risk** - A number of factors may affect the Bear Fund's ability to achieve a high degree of inverse correlation with LLY and therefore achieve its daily inverse investment objective. The Bear Fund's exposure to LLY is impacted by LLY's movement. Because of this, it is unlikely that the Bear Fund will be perfectly exposed to LLY at the end of each day. The possibility of the Bear Fund being materially over- or under-exposed to LLY increases on days when LLY is volatile near the close of the trading day.

**Pharmaceutical Industry Risk** - The profitability of pharmaceutical companies is highly dependent on the development, procurement and marketing of drugs and the development, protection and exploitation of intellectual property rights and other proprietary information.

**Healthcare Sector Risk** - Companies in the healthcare sector may be affected by extensive, costly and uncertain government regulation, rising costs of medical products and services, and changes in the demand for medical products and services.

**Eli Lilly and Company Investing Risk** — LLY faces risks associated with: costly and uncertain research and development of its products; maintaining intellectual property protections; intense competition from multinational pharmaceutical companies, biotechnology companies, and lower-cost generic and biosimilar manufacturers; among other risks.

Additional risks of each Fund include Effects of Compounding and Market Volatility Risk, Derivatives Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Concentration Risk, Market Risk, Non-Affiliation Risk, Security Volatility Risk and Cash Transaction Risk. Additionally, for the Direxion Daily LLY Bear 1X Shares, Shorting or Inverse Risk. Please see the summary and full prospectuses for a more complete description of these and other risks of a Fund.
